

WHAT WE'RE DOING TO PREPARE FOR THE CORONAVIRUS

(AND WHAT PRECAUTIONS YOU CAN TAKE)

As COVID-19 continues to impact our communities, we wanted to take a moment to share what actions we are taking to ensure the health and safety of MedRelief staffing, employees, and personnel.

What precautions can you take?

1

SCREENING ALL VISITORS

We want to make sure everyone who comes to our building is healthy and hasn't been in contact with anyone who may have been exposed to the virus. All visitors will be approved upon entry, and must have an escort when walking through the building.

2

DISINFECTING PUBLIC SPACES

We've always made sure to clean and disinfect between each visitor, but we are taking extra steps to do so to ensure that there is a zero risk of cross contamination.

3

COMMUNICATION IS KEY

We understand that things are changing quickly and we want to make sure we aren't putting anyone in jeopardy. If any changes arise, we will personally notify all of our participants.

1

STAY EDUCATED

Avoid spreading misinformation by doing plenty of research. Ensure any information you pass along is from a credible source, and continuously monitor for updates or changes of the situation.

2

WASH YOUR HANDS

Make sure you are scrubbing your hands for at least 20 seconds, and focus on your fingertips. Only use hand sanitizer if you aren't able to get to a sink.

3

SOCIAL DISTANCING

Keep a personal bubble of 6 or more feet around you, and avoid crowds of more than 10 people. Do not put anyone else at risk if you have been exposed to the virus.
